Course content includes:

Beef Quality Assurance Basics
Cattle Handling & Care Basics
Feedstuffs
Feed Additives & Medications
Processing/Treatment & Records
Injectable Animal Health Products
Cattle Genetics
Facility and Equipment Use

The Kentucky Beef Quality & Care Assurance (BQCA) Program is a holistic program for Kentucky producers based on recommended national guidelines that enables beef and dairy producers to enhance their product, maximize marketability and strengthen consumer confidence.

The BQCA program adds a cattle handling and care component to the BQA training model, providing the best management practices for handling cattle and promoting their well-being, in addition to training on the core principles of BQA.

Upon completion, participants receive a BQCA training card valid for three years and the option of purchasing a BQCA farm gate sign.

This course fulfills a CAIP Educational Requirement
